

Dear Parents,

Please be advised that all nut products including peanut butter and all tree nuts will not be permitted on any field trip. Even if your child is in a class that does not have children with this allergy, we will still be “peanut sensitive” since we often combine classes during field trips. If your child comes to school with a peanut product, he/she will not be allowed to bring it on the trip and we will provide a substitute lunch or snack.

Thank you in advance for your cooperation. Since this is a life threatening concern, I am requesting that every parent and child sign that they are aware of this district policy.

Sincerely,

Thomas Harrison  
Principal

---

I am aware that peanut/nut allergies can be life threatening and that food with nuts are not permitted on any field trips.
