

Dear 3rd Grade Students and Parents,

Investigate teacher, Mrs. Bertos is happy to be offering a brand new **Brain Games Club** this year! As members of the Brain Games Club, students will be working on mind stimulating challenges presented as fun and interesting games!

While working through the challenges, kids will practice applying effort, exercising patience, developing methods to solve problems, boosting their self-confidence, and nurturing their resilience and perseverance.

Activities will include matchstick puzzles, rebus puzzles, soma cubes, flexi-puzzles, logic games and other creative thinking challenges.

This club will meet on **Wednesdays in the AM: 7-8 am** in Room 17 which is across from the 3rd grade classrooms. Mrs. Bertos will meet the students in the main lobby at BAS. Students will be dismissed to their classrooms after club meeting.

*Please note—if there is an excess of students interested, students will be broken into sections and will attend certain dates. If this is the case, you will be notified as to which dates your child will attend.

Wednesday Sessions	Wednesday Sessions
October 16	November 13
October 23	November 20
October 30	November 27
November 6	December 4

Please complete the permission slip below and return by **October 15th**.

Please keep the top portion for your records.
