4. **BOARD WORKSHOP WITH SES CONSULTANT**

Dr. Paul Seversky of SES Study Team, LLC facilitated a future study workshop with the Board to outline the key questions/data that our school community needs to answer/discuss about how best to organize and deliver the grades Pre-K through grade twelve program over the next three years. The outcome of the workshop would be a rank-ordered tool that can help the district to focus their continued discussions, analysis, and actions.

The study question is: Are there options that might provide cost-effective ways or patterns to organize how the Pre-K – 12 program is implemented/delivered over the next three years?

The most important element of the study process is the appointment of a diverse, representative community stakeholder Community Advisory Group Committee as a steering committee to help the work of the consultant. The role of the Community Advisory Committee as a resource for the study, “Scope, Sequence of the Study and Roles of Key Participants”. Draft timeline of study steps.

A result of the Planning for the Future Work Session is a tool that documents an outline of the priorities, values, questions, and objectives of the Board as they proceed with long-ranging planning for the school district. A second result of the planning session is to inform the public about “what is on the minds” of the Board of Education as they work on a key element of their roles – long-range planning. The planning tool developed this evening will be compiled and posted on the website of the district.
